

TOURNE MOBIL MODEL YEAR 2025

ADVANTAGES AND NEWS

HIGH LEVEL OF EQUIPMENT, QUALITY AND USER FREINDLINESS

The new TOURNE is a motorhome that is almost as easy to operate as a car and even in the basic versions it offers greater agility, safety and adaptability to challenging natural circumstances in which you can enjoy!

Of course, all the improvements of the 2025 model year are based on the already classic TOURNE experiences: on the quality of production, on readiness for extreme weather situations, on a refined design approach and attention to detail.

All of the above is reflected in the equipment and construction, which basically offers you everything you need for a safe adventure.

That is why every TOURNE (*except 120 hp) is equipped with the following equipment:

ELECTRIC POWER STEERING

New electric power steering ensures automotive ease of handling. Combined with one of the smallest turning circles, you're on your way to a truly automotive experience.

TRACTION+ SYSTEM *

Traction+ is the "intelligent electronic differential" that helps the Tourne motorhome tackle mud, sand, snow and wet grass. The system transfers torque from the slipping wheel to the one with the most grip in order to regain traction.

HILL DESCENT CONTROL *

On downhill slopes, Hill Descent Control integrated in Traction+ helps maintain the desired speed with no need for constant braking. So you can focus on steering, without distractions. The function can be activated via a specific button on the dashboard.

HEATED FRONT WINDSHIELD *

Heated front windshield is a "must" that is linked to the philosophy of the TOURNE brand – all season/year vehicle – and goes well with the rest of the standard winter use equipment.

FOG LIGHTS *

For safe driving at night and in challenging natural conditions, all our vehicles have a fog light system.

BODY PANELS *

All vans have body panels around wheels.

AUTOMATIC GEAR BOX *

(additional payment)

A vehicle with automatic transmission is now also available. The driving experience is thus truly entirely automotive.

TOP NOTCH ISOLATIVITY

All our motorhomes are carefully insulated and safe for use up to an outside very low temperature area.

FLOOR HEATING AND FLOOR INSULATION

A quality experience of using a motor home is impossible if you do not ensure a warm under the motor home. That's why all our motorhomes are carefully insulated and have heated floors.

4 BEDS SYSTEM – 4 DREAM SYSTEM™

With a few moves, our motorhome will be a cozy home for 4 people. Great solution for your kids or friends visiting! 4 Dream System.

* Not included in 120 hp version

4 VERSIONS OF THE MOBILE TOURNE

As already known from the standard offer, TOURNE offers 2 length versions – 6.0 and 6.4. We continue with the already known logic, which was perfectly accepted by the market.

In addition, for the 2025 model year, we positioned the TOURNE in two equipment levels - CRUISE and SELECT. In this way, we wanted to achieve the following:

✔ To offer a affordable TOURNE CRUISE that will still represent all the qualities and values of the TOURNE, but will bring the TOURNE approach closer to all motorhome lovers with an extremely attractive price. Attention: TOURNE CRUISE also has a set of equipment that impresses.

✔ To offer the prestigiously equipped TOURNE SELECT, with its new design approaches, friendliness and superior equipment takes fans into the world of motorhome prestige.

Below is a comparison between the CRUISE and SELECT models:

	TOURNE CRUISE	TOURNE SELECT
Engines	120 hp, 140 hp, 180 hp	140 hp, 180 hp
Gearboxes	6MT, 8EAT automatic	6MT, 8EAT automatic
Vehicle Length	6.0 and 6.4	6.0 and 6.4
Furniture	Classic furniture as known from the 2024 model year.	New furniture - brighter, more ergonomic, with elaborate details and even higher quality in manufacturing and assembly.
Basic equipment	A rich range of equipment that ensures a TOURNE experience: - New electric power steering - Traction+ * - Hill Descent Control * - Heated front windshield * - Body panels around wheels * - Fog light system * - M+S tyres * (not included in 120 hp)	An exceptional range of equipment for a prestigious TOURNE experience: - Cruise + - Autonomous driving - Infotainment 10" - Digital central rearview mirror - Full digital cockpit - Automatic climate control - Electric park brake
Optional equipment	It is possible for the customer to optionally order practically all additional equipment offered by TOURNE MOBIL. In this way, the buyer can make a quality motorhome according to his expectation at the time of purchase or with later upgrades for an attractive price.	The car is so richly equipped that only the following accessories can be ordered: - Full LED headlights - 360 park assist - Keyless entry
Exterior	CRUISE represents simplicity, activity, all of which is reflected in the design style of less is more. A detail of sophistication and higher value is made possible by the selected special black brushed aluminum foil. The bumpers are – simply black.	SELECT stands for sophistication and elegance. The already familiar isohypses, lines and bumper in metallic black, in conjunction with the new design of the vehicle, create an extremely elegant and attractive exterior. Compliance is complete if we add alloy wheels to the car, which are available as an option.
Price	- From 58.690 EUR for 6.0 120 hp - From 69.540 EUR for 6.4 140 hp	- From 86.890 EUR for 6.0 180 hp EAT8 automatic - From 89.990 EUR for 6.4 180 HP EAT8 automatic

ADVANTAGES OVER THE COMPETITION

In our price range, we have the following distinct advantages over the competition:

- ✓ Extremely favorable price of the CRUISE model with the possibility of upgrading
- ✓ An exceptionally equipped model SELECT with an attractive market price
- ✓ Models and equipments offer that can satisfy all customers in our segment
- ✓ High level of basic equipment
- ✓ Higher level of quality & details
- ✓ Ease of selection due to the division into CRUISE / SELECT and L3 / L4 models
- ✓ The launch of a new configurator that will be user-friendly and will guide to a simple and rational purchase experience

Prices are for German market
